

CESSWI REVIEW COURSE AND EXAM

(Certified Erosion, Sediment and Storm Water Inspector)

March 8, 2010 (Exam on: March 10, 2010)

The Certified Erosion, Sediment and Storm Water Inspector Certification Program (CESSWI) was created by EnviroCert International, Inc. (formerly CPESC, Inc.) in conjunction with an international oversight committee of erosion and sediment control, and storm water management professionals.

A UNIQUE PROGRAM

CESSWI Registrants must understand the minimum requirements for the US EPA National Pollutant Discharge Elimination System (NPDES) storm water permit program and/or Canada's Department of Fisheries and Oceans Requirements.

Registrants must demonstrate proficiencies in Site Safety, Communication, Documentation, Inspector Duties, and Plan Management. Additionally, registrants must possess a full understanding of the following aspects of Best Management Practices (BMPs): Purpose, Objective, Targeted Pollutants, Applications, Limitations, Implementation Considerations, Inspection Criteria, and Maintenance.

WHO CAN ATTEND?

Any individual may attend the course.

Approval by EnviroCert is required to sit for the exam. Certification is obtained via a specific process. For more information visit: www.cesswi.org.

A NEW INDUSTRY STANDARD

CESSWI's are being recognized throughout the United States and Canada as individuals who have demonstrated the minimum proficiencies needed to inspect construction and post-construction Management Practices. Specific state requirements may be added to the certification process.

For information on the benefits and process for certification, see www.envirocertintl.org and California NPDES adopted General Permit http://www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml
