

# WATER QUALITY MANAGEMENT PLAN (WQMP) PREP COURSE

AEI-CASC has over twelve years of experience assisting companies and government agencies comply with requirements of the NPDES program. When the WQMP requirements first became effective, AEI-CASC was selected by both the County of Riverside and the County of San Bernardino to provide training to city and county staff responsible for review and approval of WQMPs submitted to their respective agencies. Collectively, staff from over 40 cities and the counties attended these training sessions.

## WHO SHOULD ATTEND?

This course is geared towards professionals involved in land development projects and public works projects in areas of Riverside County that ultimately drain to the Santa Ana River or to the Santa Margarita River.

This course is sponsored by the City of Murrieta and the Riverside County Storm Water – Clean Water Program as part of their efforts to educate the community regarding requirements to incorporate water quality protection measures into development and redevelopment projects.
